The Society's primary objectives are to protect and enhance the heritage, character and environment of the Parish of Odiham, which includes North Warnborough, and to explore local history and development.

To this end the Society represents the interests of members and the wider community in local planning and other issues, while seeking to stimulate public interest and participation in its work through publications, talks, visits, events, exhibitions and historical research.

***If you care about Odiham and North Warnborough - join us now.
Your support helps in the campaign to protect our precious environment.***

The Society is a supporter of the Hampshire Heritage Open Days Scheme.

Benefits of Membership

Members receive a copy of the Odiham Society Journal, published twice a year in Spring and Autumn. Each issue includes features on topics of interest in Odiham and North Warnborough, on historical, conservational and environmental subjects related to the area.

An Odiham Society Newsletter is also published from time to time.

Each year the Society organises several evening talks on subjects of local and general interest that are free to members. In addition, visits and social events are organised throughout the year. Details are sent to members and may also be found in the Journal or the Parish News.

The Society participates in local events. It raises funds to support its activities on behalf of the community; on occasions this is associated with other appropriate organisations.
